

# Corporate Volunteer Groups Volunteer Information

Project Homeless Connect invites your company to volunteer and participate in our Community Day of Service. Each event is made possible through the support of more than 700 volunteers and sponsorships. We are excited to work with you!

At a **Community Day of Service**, an individual experiencing homelessness or at risk of becoming homeless is able to receive assistance from more than 100 providers under the same roof in a “one stop shop” model. Many of the services provided could not otherwise be accessed by a person experiencing homelessness.

Not available on a Community Day of Service? Join an **Outreach Walk** with your team!

## Team Building Opportunities!

By volunteering as a group, you are able to spend time together outside of the office, work together as a team, and make a real impact in the community where you live and work! Every volunteer shift begins with a Rally and a Training so that we begin the day both excited and also well equipped to provide care with dignity.

## Make a difference!

While the day is fast paced and impactful, we also ensure there are moments of reflection and introspection. Visiting participants are invited to sit down, eat lunch, and enjoy the classical compositions from students at the San Francisco Conservatory of Music. We also always end the volunteer shifts with opportunities to reflect and share what was learned.

## Contributions Go Beyond the Day of Service!

Companies are encouraged to consider a suggested donation of \$35/volunteer. This contribution allows us to ensure we are able to provide services for free to participants, lunch and shirts for all volunteers, and also maintain our Every Day Connect programs, which provide resources and care throughout the year.

Want to be even more involved in the differences you will make? Consider a Sponsorship! Levels range from \$1,000 - \$55,000 and include marketing opportunities as well as a chance to lead one of the areas of service and keep your team together as a group.
