

At Project Homeless Connect, we take the health and wellbeing of participants, providers, and volunteers very seriously.

PHC WILL BE RESCHEDULING OUR MARCH 4TH COMMUNITY DAY OF SERVICE

We have been in close communication with the Department of Public Health (DPH) over concerns related to **COVID-19**. After careful consideration, DPH has recommended that we reschedule the event as a preventative measure due to the large number of attendees that come to a PHC event to volunteer, provide services, and receive services. We rely on the advice of healthcare experts for these difficult decisions.

We have listed available services in San Francisco on the back of this flyer. We will provide additional service information and share updates from DPH on our website, updated regularly.

At PHC, we always put health and safety first. Thank you for your understanding and support.
